

**KOSHER
LADINO**

**food
for the
soul**

Dear customer,

With over 15 years of experience in the food industry, we have grown to be a Glatt Kosher certified food business. Our vision is to bring to people's plates the distinctive tastes and look, of the best aspects of Salonika's Jewish cuisine.

All our products are 100% natural. The fresh ingredients that we use, such as vegetables, eggs and olive oil are provided by local farmers which meet our customers high standards in terms of goodness, health and quality.

The meat and chicken is **Glatt Kosher**.

Dairy raw materials such as milk, cheese, and yoghurt are **Chalav Israel**

Packaging materials such as trays and films are imported from Israel and meet all European standards. They are suitable for conventional airwave ovens as well as microwave ovens, and can endure a temperature range from -40C up to +190C with no harmful material migration to food. **All trays containing ready meals are double sealed with fire resistant films and can be re-heated in airwave non-Kosher ovens or microwave and still be Kosher.** To re heat the food simply place the pack, (without removing the air sealing film) in an airwave oven, pre heated at 180 C. Re-heating time varies according to the type of food and is written on the package.

Also delivery cost and VAT taxes are not included in the catalogue prices.

For more information do not hesitate to contact us. Our team is always ready to joyfully provide its services to you. Their ears are open to all comments and suggestions for improvement.

Thank you for choosing Kosher Ladino catering.
Enjoy food for the soul.

Respectfully,
Kosher Ladino team
